

LEAD GENERATOR PROGRAM

If you qualify, you will earn up to \$500.00 finder's fee just for referring us to someone who purchases a retail participation in one of our client's oil and gas ventures. The minimum information needed is a name and telephone number; however, other useful data will be appreciated. Each time your referral makes another purchase thru the Energy Exchange, you will be paid 1%, until your \$500.00 fee has been paid.

Also, you may recruit Lead Generators who will also receive up to \$500.00 per referral. In addition, you also will receive up to \$500.00 for each of their referrals. The second level Lead Generator may also recruit Lead Generators and be paid accordingly; however, you will not receive any compensation for third level participants.
